

HELP US PROTECT OUR COMMUNITY

The health and safety of our guests and employees is our top priority. In keeping with the recommendations of the CDC, Browning Funeral Home will conduct funeral services and visitations for the decedent's immediately family and close friends only. We want to assure you that the Browning Funeral Home team is taking proactive measures to help prevent the spread of any potential illness. We are closely monitoring the Centers for Disease Control and Prevention and the World Health Organization's statements regarding the novel coronavirus (COVID-19) cases and following guidelines from these agencies and local health departments.

- We use cleaning and disinfecting protocols to clean our chapels, lounges and restrooms after each service, with particular attention paid to high touch items like nobs, faucets and chairs.
- We have increased the frequency of cleaning and disinfecting these public areas.
- Employees who exhibit cold or flu-like symptoms have been instructed to stay home from work.
- Proper and frequent handwashing is vital to help combat the spread of viruses. Please use our restroom to wash your hands thoroughly with soap and water during your visit at Browning Funeral Home.
- In an effort to minimize direct contact and exercise social distancing, we ask that you avoid shaking hands or physical contact with the members of the family you are here to visit.
- We request that any guests who are experiencing cold or flu-like symptoms, including fever, cough or shortness of breath, or have been in contact with or have recently traveled to any of the affected countries refrain from visiting the funeral home at this time.

Thank you for supporting us in this effort to stop the spread of germs. If you have any questions, feel free to ask a member of the Browning Funeral Home team.
